The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 22-24 and 26 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by either Gagnon or Ettlin. Gagon shows clamping members 8 and 16 and a platform 3. Ettlin shows clamping members C and E2 and a platform B.

Claims 1-9,14-21 and 25 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 6.27.05.

Applicant's election with traverse of Group II in the reply filed on 10/21/05 and 6/27/05 is acknowledged. The traversal is on the ground(s) that a separate utility for Group II was not given and the search for both group is the same. This is not found persuasive because Applicant should note the restriction requirement dated 4/25/05, applicant's arguments that Group I could provide the same utility as

given, it is noted that Group I claims a specific utility. Applicant's arguments that both Groups would require the same search. It is noted that a search is only a part of an examination process and thus does not comprise the total burden on the office. With respect to Group I and III, applicant argues that no rational or explanation was given, once again please note the restriction dated 4/25/05 which gives an explanation..

The requirement is still deemed proper and is therefore made FINAL.
